

California Regional Water Quality Control Board
Santa Ana Region
3737 Main Street, Suite 500
Riverside, CA 92501-3348

NOTICE OF PUBLIC HEARING

For
ORDER NO. R8-2003-0116
Amending Order No. R8-2003-0003, NPDES NO. CA8000402
For
Inland Empire Utilities Agency
Regional Water Recycling Plant No. 5
Chino, San Bernardino County

On the basis of preliminary staff review and application of lawful standards and regulations, the California Regional Water Quality Control Board, Santa Ana Region, proposes to amend waste discharge and producer/user water recycling requirements for Inland Empire Utilities Agency's Regional Water Recycling Plant No. 5 to change the date for rescission of CDO No. 01-5 and Order No. 01-2 for the Agency's Recycling Plant No.2 to March 30, 2004.

The Board is seeking comments concerning the proposed amendment to waste discharge requirements. The Board will hold a public hearing to amend Order No. R8-2003-0003, NPDES No. CA8000402, waste discharge and producer/user water recycling requirements for RP-5 as follows:

DATE: November 21, 2003
TIME: 9:00 a.m.
PLACE: Eastern Municipal Water District's Board Room
2270 Trumble Road
Perris, California

Interested persons are invited to submit written comments on the proposed Order No. R8-2003-0116. Interested persons are also invited to attend the public hearing and express their views on issues relating to the proposed Order. Oral statements will be heard, but should be brief to allow all interested persons time to be heard. For the accuracy of the record, all testimony (oral statements) should be submitted in writing.

Although all comments that are provided up to and during the public hearing on this matter will be considered, receipt of comments by November 3, 2003, would be appreciated so that they can be used in the formulation of the final draft Order that will be transmitted to the Board two weeks prior to the hearing. The final draft Order may contain changes resulting from comments received from the public. To view on/or download a copy of the final draft requirements, please access our website at www.swrcb.ca.gov/rwqcb8 on or after November 10, 2003.

The Board's proposed Order, related documents, and all comments and petitions received may be inspected and copied at the Regional Board office, 3737 Main Street, Suite 500, Riverside, CA 92501-3348 (phone 909-782-4130) by appointment scheduled between the hours of 9:00 a.m. and 3:00 p.m., Monday through Friday. Copies of the proposed Order will be mailed to interested persons upon request to Jun Martinez ((909) 782-3258).

Any person who is physically handicapped and requires special accommodation to participate in this Regional Board Meeting should contact Barbara Laffoon at (909) 782-3285 no later than November 10, 2003.

Please bring the foregoing to the attention of any persons known to you who would be interested in this matter.

California Regional Water Quality Control Board
Santa Ana Region

November 21, 2003

ITEM:

SUBJECT: Amendment of Order No. R8-2003-0003, NPDES No. CA8000402, Waste Discharge and Producer/User Water Reclamation Requirements for Inland Empire Utilities Agency – Regional Water Recycling Plant No. 5, Order No. R8-2003-0116.

DISCUSSION:

On July 1, 2003, the Regional Board adopted Order No. R8-2003-0003, NPDES No. CA8000402 prescribing waste discharge and producer/user water reclamation requirements for Inland Empire Utilities Agency – Regional Water Recycling Plant No. 5 for the discharge of tertiary treated wastewater to Chino Creek. The adopted Order rescinded Order No. 01-2 and Cease and Desist Order No. 01-5, applicable to discharges from the Agency's Regional Plant No. 2, as of July 1, 2003.

On August 22, 2003, the Regional Board reconsidered Order No. R8-2003-0003 by adopting Order No. R8-2003-0089. Order No. R8-2003-0089 revised the rescission dates of Order No. 01-2 and Cease and Desist Order No. 01-5 to December 30, 2003.

On September 24, 2003, IEUA informed Regional Board staff that the construction of RP-5, which will replace RP-2, has been delayed for at least two months due to unexpected delays in the delivery of electrical panels for the RP-5 pump station and problems with the instrumentation conduit for the pump station. Therefore, IEUA requested that the rescission dates for CDO No. 01-5 and WDR Order No. 01-2 for RP2 be extended to February 29, 2004.

In view of the potential for further delays in the construction and operation of RP-5, and to avoid further need to amend the rescission dates for the orders applicable to RP-2, staff recommends that Order No. R8-2003-003 be amended to specify March 30, 2004 as the rescission date. This would assure permit coverage for the continued operation of RP-2 until RP-5 is fully operational. Order No. R8-2003-0116 would implement this recommendation.

RECOMMENDATION:

Adopt Order No. R8-2003-0116, as presented.

Comments were solicited from the following agencies:

U.S. Environmental Protection Agency, Permits Issuance Section (WTR-5) - Doug Eberhardt

ORDER NO. R8-2003-0116

Amendment of Order No. R8-2003-0003, NPDES No. CA8000402
Waste Discharge and Producer/User Reclamation Requirements

for

Inland Empire Utilities Agency
Regional Water Recycling Plant No. 5
Chino, San Bernardino County

The California Regional Water Quality Control Board, Santa Ana Region (hereinafter, Board), finds that:

1. On July 1, 2003, the Board adopted Order No. R8-2003-0003, NPDES No. CA8000402, prescribing Waste Discharge and Producer/User Reclamation Requirements for Inland Empire Utilities Agency's (hereinafter, discharger or IEUA) Regional Water Recycling Plant No. 5 (RP-5) for the discharge of tertiary treated wastewater to Chino Creek.
2. RP-5 is currently under construction and will eventually replace IEUA's Regional Water Recycling Plant No. 2 (RP-2). RP-2 is an existing wastewater treatment plant that treats domestic and commercial/industrial wastewater from the Cities of Chino and Chino Hills. RP-2 is regulated under Order No. 01-2, NPDES No. CA0105287 and under Cease and Desist Order (CDO) No. 01-5.
3. Order No. R8-2003-0003 inadvertently rescinded Order No. 01-2 and CDO No. 01-5 at the time of its adoption. On August 22, 2003, the Regional Board reconsidered the adoption of Order No. R8-2003-0003 by adopting Order No. R8-2003-0089. Order No. R8-2003-0089 revised the date of the rescission of Order No. 01-2 and CDO No. 01-5 to December 30, 2003, when RP-5 was expected to begin full operation.
4. On September 24, 2003, IEUA requested extending the rescission date for Order No. 01-2 and CDO No. 01-5 from December 30, 2003 to February 29, 2004 due to unexpected delays in the delivery of electrical panels for the RP-5 pump station and problems with the instrumentation conduit for the pump station. The completion of RP-5 is expected to be delayed by at least two months.
5. In view of the potential for further delays in the implementation of the RP-5 facility, and to avoid further need for revisions of the rescission date of Regional Board Orders governing waste discharges from RP-2, it is appropriate to revise the rescission date of these orders to March 30, 2004, rather than February 29, 2004, as requested by the discharger.

6. In accordance with Water Code Section 13389, amendment of the waste discharge requirements for this discharge is exempt from those provisions of the California Environmental Quality Act contained in Chapter 3 (commencing with Section 21100), Division 13 of the Public Resources Code.
7. The Board has notified the discharger and other interested agencies and persons of its intent to amend the rescission date of Order No. 01-2 and CDO No. 01-5 and has provided them with an opportunity to submit their written views and recommendations.
8. The Board, in a public meeting, heard and considered all comments pertaining to the discharge.

IT IS HEREBY ORDERED that Order No. R8-2003-0003, NPDES No. CA8000402, is amended and the rescission dates are revised as follows:

1. Order No. R8-2003-0003, change Finding 3., as follows:
 3. To comply with the requirements of CDO No. 01-5, the discharger opted to construct RP-5 at a site not subject to flooding. Once constructed and in operation, the proposed RP-5 will assure compliance with CDO No. 01-5 requirements. This Order rescinds CDO No. 01-5 as of March 30, 2004.
2. Order No. R8-2003-0003, change Finding 4., as follows:
 4. RP-5 is currently under construction to meet the deadline stipulated in CDO No. 01-5. When RP-5 is operational, treated wastewater will no longer be discharged from RP-2 to Chino Creek. This Order rescinds Order No. 01-2 as of March 30, 2004.
3. Order No. R8-2003-0003, change Provision J.3., as follows:
 3. Order No. 01-2 and CDO No. 01-5 are hereby rescinded on March 30, 2004.
4. All other conditions and provisions of Order No. R8-2003-0003 shall remain unchanged.

I, Gerard J. Thibeault, Executive Officer, do hereby certify that the forgoing is a full, true, and correct copy of an order adopted by the California Regional Water Quality Control Board, Santa Ana Region, on November 21, 2003.

Gerard J. Thibeault
Executive Officer
